

Space city Inspections, LLC Earns Esteemed 2017 Angie's List Super Service Award
Award reflects company's consistently high level of customer service

Space city Inspections is proud to announce that it has earned the home service industry's coveted Angie's List Super Service Award (SSA). This award honors service professionals who have maintained exceptional service ratings and reviews on Angie's List in 2017.

"The service providers that receive our Angie's List Super Service Award demonstrate the level of excellence that members have come to expect," said Angie's List Founder Angie Hicks. "These pros are top-notch and absolutely deserve recognition for the trustworthy and exemplary customer service they exhibited in the past year and overall."

Angie's List Super Service Award 2017 winners have met strict eligibility requirements, which include maintaining an "A" rating in overall grade, recent grade and review period grade. The SSA winners must be in good standing with Angie's List, pass a background check, record a current trade license attestation and abide by Angie's List operational guidelines.

Space City Inspections is honored to receive this award and we will continually strive to provide the best possible service to our clients.

Space City Inspections has been listed on Angie's List since 2011. This is the first year Space City Inspections has received this honor.

Service company ratings are updated continually on Angie's List as new, verified consumer reviews are submitted. Companies are graded on an A through F scale in multiple fields ranging from price to professionalism to punctuality.

For over two decades Angie's List has been a trusted name for connecting consumers to top-rated service professionals. Angie's List provides unique tools and support designed to improve the local service experience for both consumers and service professionals.

A home inspection is a major part of your decision to buy a particular house, so choose an inspector wisely. It is important to have confidence in your home inspector. Remember, the inspector works for you. You are paying for a service and should get your money's worth.

Our goal at **Space City Inspections** is your complete satisfaction by performing a thorough structural and mechanical inspection, which includes the electrical, plumbing, and HVAC systems as well as the built in appliances. Building on the requirements of the Texas Real Estate Commission, we provide a comprehensive written report that is accurate and complete. The report is provided within 24 hours of the inspection and usually on the same day.

In addition to the normal inspections mentioned above we also provide inspections of other optional systems, such as swimming pool & spa systems, lawn sprinkler systems, boat houses & boat lifts, and water well equipment. If you'd like we can arrange for a wood destroying insect (termite) inspection and report.
