A home inspection is a major part of your decision to buy a particular house, so choose an inspector wisely. It is important to have confidence in your home inspector. Remember, the inspector works for you. You are paying for a service and should get your money's worth.

Our goal at Space City Inspections is your complete satisfaction by performing a thorough structural and mechanical inspection, which includes the electrical, plumbing, and HVAC systems as well as the built in appliances. Building on the requirements of the Texas Real Estate Commission, we provide a comprehensive written report that is accurate and complete. The report is provided within 24 hours of the inspection and usually on the same day.

In addition to the normal inspections mentioned above we also provide inspections of other optional systems, such as swimming pool & spa systems, lawn sprinkler systems, boat houses & boat lifts, and water well equipment. If you'd like we can arrange for a wood destroying insect (termite) inspection and report.
